

# GROUP STORYTELLING

# GROUP STORYTELLING

## TIME

10 minutes

## SEL COMPETENCY

Relationship Skills

## PURPOSE

To create one group story  
by combining individual,  
unique parts

## ACTIVITY:

- Start by sitting in a circle. Choose one person to facilitate the activity.
- Explain: **We are going to tell a story together. I am going to start the story and one at a time everyone will add to the story. You can add a sentence or phrase but it must end with the word “and” so the next person can continue the story.**
- Encourage participants by saying: **Be creative with your additions; you do not have to stick with someone else’s idea.**
- It is up to the facilitator to do one or multiple rounds. By the end of the activity, everyone will have heard a completed story.

Reflection: Was it difficult to think of an addition to the story? What skills helped us create one story as a team?  
Can you make any connections between this activity and real life?
